

Bio for Steven Curtis
BSEE and MS Health Physics

Mr. Curtis has worked in the radiation and nuclear profession for more than 30 years. He was a technical program manager and team leader for the Department of Energy's Nuclear Emergency Search Team in Nevada and a development official for the Nevada University System. He has been an innovator for nuclear energy and a senior consultant on nuclear and counterterrorism issues. Currently, he is advancing nuclear energy as a way to contribute to clean energy production and his ideas on recycling used nuclear fuel are gaining attention throughout the country. He served as an electronics expert in the Army and an Armor Commander in the Nevada Army National Guard. He is a member of the American Nuclear Society (ANS) and is a past president of the ANS Section in Las Vegas, Nevada. He holds a BSEE and Master's Degree in Health Physics from the University of Nevada, Las Vegas. He currently resides in Minnesota where he writes and speaks on the benefits of nuclear energy.
