

Abstract  
American University Physics 336 Class Seminar  
**The Only Way to Prevent Nuclear War**  
Robert Ehrlich, BS and PhD

There are many flashpoints now for nuclear war, especially Ukraine, where the possible use of nuclear weapons by Russia could lead to a nuclear World War III.. This presentation describes the only way to prevent nuclear war. My solution is different from the usual one, which claims that the risk can only be ended if we eliminate nuclear weapons. Find out why banning nukes will likely bring about the very nuclear war it was hoped to avoid, and why my solution is the only one that will work.
